

*Hello Jayne,*

*this Tour was amazing just like the Outback Tour. The accommodation was so much better than expected. The open kitchen and the giant living room were great for the group game and in general a good opportunity to sit together and chat or just relax after the exhausting surfing. The coaches were also very nice and I loved being taught by them. They definitely knew what they were doing and gave me good feedback on what to do different so I could get better and better. It was also a great spot on the beach for beginners.*

*I noticed it at the Outback Tour and I can say it again for the Surf Trip: you have the Perfect balance of relaxing and action. As I like to call it, „the bus of adventure“ is the perfect spot for a quick nap between two locations. You keep us busy and I didn't get bored once. The trips were both filled with action and I slept until 12pm this morning because I was so exhausted. I like it how Ricko and Matt showed us the area.*

*What I didn't like it the amount of meat we ate on both of the trips. I am not a vegetarian, that's why I didn't tell you that I need something extra to replace the meat, but it was still a lot. I know that there were other options for example salad and potatoes and i was full at the end of the day anyways it's just a lot for my personal taste.*

*There snacks for the afternoon were a great idea!*

*THANK YOU VERY MUCH and I loved getting to know Ricko and Matt. Ricko is probably one of the most positive person I ever met. Always in a good mood and soooo Kind :). I really enjoyed his stretching session. My arms and shoulders were so sore and that helped to relax the whole body.*

*Don't stop with what you're doing! I had a great time.*

*Until I see you and the bus of adventure again! :)*
