

To Whom it may Concern.

The Small Business Training Centre, Adelaide TAFE has utilised the services of Jayne Vaughton and her Company for a period of seven years.

This has almost exclusively involved the transport and care of International students and International Guests. The services provided range from Airport greetings and departures to tours and overnight tour arrangements.

At all times Jayne has provided a courteous and punctual service, essential with airport and tour services. She has also shown a cultural awareness that we value highly as we know our guests will be treated with sensitivity in respect to their culture.

Jayne has always demonstrated a high level of professionalism and is still the first person we contact when we have International guests.

I have no hesitation at all in recommending Jayne as she has provided our Centre with excellent services throughout our long association.

David Byrne
