

Hi Jayne,

I went on the Kangaroo Island Tour on the weekend (Sept 22nd-23rd) with the group of international students from Flinders University.

I believe that Klaus was planning to pass on my feedback (I'm the local student who works with the International Student Services team) but I also wanted to email you myself to let you know how impressed I was with Rick and Matt. I think that Rick and Matt did an incredible job, both were very friendly and relatable to students as well as clearly being very passionate and knowledgeable about not just KI but also South Australia and Australian culture in general. I feel like they really went above and beyond to ensure that everyone on the tour felt welcome, safe and happy. I cannot speak their praises highly enough.

Considering it was a short trip I was impressed with how much the tour was able to fit in (without it feeling too rushed). I think that the choices of places were also really well chosen with international students in mind.

The food was also incredible! Far beyond what I was expecting!

All in all, I could see from all the students that they had a really fantastic time!

I really want to thank you for organising such a great tour and staffing two fantastic guides to lead it.

Thank you,

Aubrey.
